ENVIRONMENTAL POLICY OF THE COMPANY

Protection of the environment is part of APEM SA's general policy.

Our General Management has set up the necessary procedures in all the industrial fields of our activity having some impact on the environment.

The implementation of protection measures concerns:

- Conformity to prevailing regulations
- Conformity to specified environmental requirements
- Prevention of industrial risks, noise, water, air and ground pollution
- Reduction, or even elimination, of dangerous substances
- Recycling and elimination of waste by authorised channels
- Appropriate training and consciousness-raising campaigns for our personnel
